

ACOUSTIC ENCLOSURES

A range of acoustic enclosures has been designed to match each blower in the Secomak range and give the benefit of lower noise levels. A reduction of around 10 - 15 dB (A) can be achieved whilst still maintaining fan performance and motor cooling.

Standard units have no base and are designed for floor mounting over the blower.

For other mounting arrangements a matching base is available.

FAN MODEL	DIMENSION		
	A	B	C
575, 576	483	561	570
428, 535	540	543	914
437, 539	572	628	1077
580, 581	620	608	1104
492, 540	620	608	1104

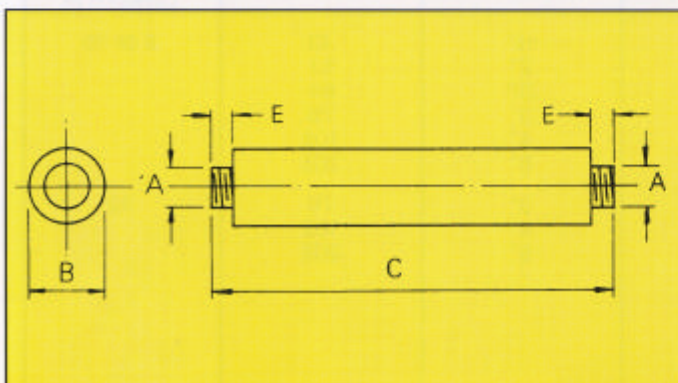

FLEXIBLE HOSE

OUTLET SILENCERS

Outlet silencers are particularly suitable when blowers are used in vacuum applications and there is no connection to the fan outlet. Noise levels are reduced by around 15dB (A) and their use is recommended.

When used in a blowing configuration connected to flexible hose, noise levels are reduced by about 5dB (A).

FAN MODEL	DIMENSION				
	A	B	C	D	E
575	2" BSP	133	762	838	38
428	2" BSP	133	762	838	38
437	2" BSP	133	762	838	38
580	3" BSP	178	762	858	48
492	3" BSP	178	762	858	48
